the European Union

The objective of the project

The objective of the project is to develop the capacity of adults to intervene in the environmental education, by training adult skills and by developing strategies for approaching environmental education in context formal and non-formal.

In this context, our project and the partnership between the 6 associations aims to develop a transnational program for the development and exploitation of creativity of adults for protecting the environment and finding new ways to creatively recycle waste.

Funded by
the European Union

About

The objective of the project is to develop the capacity of adults to intervene in the environmental education, by training adult skills and by developing strategies for approaching environmental education in context formal and non-formal.

In this context, our project and the partnership between the 5 associations aims to develop a transnational program for the development and exploitation of creativity of adults for protecting the environment and finding new ways to creatively recycle waste.
